THE ANDERSONS DG LITE® TECHNOLOGY NOW ON CLEARY 3336® G

MAUMEE, OHIO, August 5, 2011 – The Andersons, Inc. (Nasdaq: ANDE) and Cleary Chemicals LLC is pleased to announce a co-marketing collaboration that has brought to market an updated Cleary 3336 G Systemic Fungicide with The Andersons patented DG Lite technology.

The product is marketed under the Cleary brand and is distributed through The Andersons, Inc. and Cleary Chemicals LLC.

“We are excited to partner with Cleary on this product” says Chuck Anderson, Director of Technical and Marketing for the Turf & Specialty Group at The Andersons, Inc. “Cleary has an impressive portfolio of fungicides. Cleary 3336 G offers our customers an expanded label to suit multiple markets.” This new product will replace The Andersons Systemic Fungicide AGC8539.

Bill Bewlay, Chief Operating Officer for Cleary Chemicals, LLC adds “Cleary is proud to bring the power of The Andersons DG Lite to our well established 3336 G fungicide offering our

customers dispersibility with the benefits of no mower pick up for golf, and easy spreading for our nursery and ornamental customers.”

About The Andersons, Inc.

The Andersons, Inc. is a diversified company with interests in the grain, ethanol and plant nutrient sectors of U.S. agriculture, as well as in railcar leasing and repair, turf products production, and general merchandise retailing. Founded in Maumee, Ohio, in 1947, the company now has operations across the United States, in Puerto Rico, and has rail equipment leasing interests in Canada and Mexico.
